FINED FOR FIGHTING.—T. W. Wilburn and Bentura Cardosa were yesterday arrested for fighting and assessed \$6 and \$7 respectively in Judge Kyle's court. The former was committed to jail in default of the cash.

A TEMPORARY CHANGE.—The passenger train No. 4 on the Santa Fe which usually leaves for the north at 8 a. m. will on Saturday June first leave at 7 a. m. This arrangement has effect only upon that date and thereafter according to schedule, it will depart at the usual hour.

A LOUD ENCORE.—The presentation of "The Princess" by the Eighth grade pupils on Wednesday night was so favorably received that Mrs. Cooley who trained the pupils has been importuned by many who were present as well as by others who afterward wished they had been to put it on again. They will probably be done next week. The time and place will be announced later.

GOING AFTER HIS OWN.—Hon. Marcus A. Smith arrived in town yesterday accompanied by W. H. Brophy of Bisbee, on his annual fishing expedition on Oak Creek. Mr. Smith has not failed to visit this famous trout stream in several years. Every year he causes a lot of young trout to the number of several thousand to be shipped for the stocking the stream, and then later in the season he goes and catches them all out again, that is, if they bite well. There is usually a party of ten sportsmen in the northern part of the territory who join Mr. Smith on this annual outing. Mr. Smith will remain in the northern part of the territory for about two weeks.

CIVIL SERVICE EXAMINATION.—The United States civil service commission has announced examinations to take place on June 26 for the purpose of securing eligibles for the positions of chief and first class engineer in the custodian services. The salary of chief engineer ranges from \$1800 a year on entrance to the service to \$2500. The position especially vacant just now is in the United States post-office and court house building at Chicago. The age limit for this examination is from eighteen to fifty-five years. The salary of a first class steam engineer ranges from \$1200 on entrance to the service to \$1600.

THOROUGHLY MIXED UP.—A curious misunderstanding occurred at the office of the sheriff night before last. A deputy sheriff from Pima county, stationed at Valis, arrived in town in the evening and went to the

office of the sheriff and introduced himself to Deputy Adams. He remained about the office and met none of the other officials. He was there again late in the evening and Deputy Adams had prepared himself for bed. Just then a noise was heard on the outside. Constable Ivy was having trouble with an obstreperous character named Lundstrom, whom he had just arrested. At the entrance to the jail Lundstrom balked and refused to go further. Deputy Adams began dressing to go to the assistance of the constable when the Pima deputy offered to take the job off his hands. With his help, the constable brought his prisoner in. After he was searched, the constable and the Pima deputy, the latter with the big key of the cell in his hand, started toward the jail with Lundstrom. The Pima deputy and thinking that he was joining in an attack upon the constable, he rushed in and aimed a blow with his revolver at the stranger. The Pima deputy saved himself by dodging and Deputy Davis swiped backward again, missing the Pima man, but fortunately striking the fighting Lundstrom, who went down. All this happened within a few moments. Deputy Adams had dressed and got to the door in time to see the hostile movement of Mr. Davis against the Pima deputy and called to him to stop. Then began a series of explanations which cleared up the situation. The Pima deputy had supposed that Mr. Davis was heading a rescuing party. No harm was done beyond an abrasion of the cheek of the Pima man.

First Baptist church in Douglas. The Indians on the reservation have made arrangements to build a church, and the visit resulted in much benefit to the work of establishing the Christian religion amongst that tribe. Rev. Mr. Young says that the Moki are the most prosperous tribe he has visited in the southwest. He made quite a record in cross country travel recently when he rode seventy-five miles, from the reservation to the Grand Canyon on a mule in thirteen hours, and is not much of a mule rider either. In February Rev. Mr. Young and wife will go to the Holy Land via the Suez canal and spend several months in studying the conditions there. They will make several trips of three and four hundred miles into the desert on camels.

THE REJUVENATED ATHLETES—Curley has a grievance. He has lost his bicycle. This was the unkindest cut of all, and coming as it did immediately succeeding the winning of the last ball game by Tucson. But the rejuvenated Athletics have come from under the anesthetic administered, and are determined to have no more suicide verdicts rendered by a jury of their peers. The documentary evidence has been put out of sight and with new caps which arrived this week the team will come out from under the cloud and be wearing halos big as barrel hoops in a few days. Prescott has also come to and sees that their actions during the late cat-a-leptic state, in which they saw "brain storms" and other reptiles too numerous to mention, was a bad bungle of untoward circumstances. Had they made the best of it, matters would not "smelled so foul to heaven." But in order to cement the gap that was being sprung and to spread a veneration of soft soap over the wounds of the yesterdays they have arranged to give Phoenix a gallant reception at Prescott next Sunday, June 8th and show the Athletics how a real ball game is played. This will be the first of a series of three games, the other two having been wiped off the
